VERITY LINE

A PRODUCT LINE THAT LIVES AND BREATHES DESIGN

Sleek and unfussy with clear surfaces, elegant lines and sophisticated appeal: the Verity Line collection truly lives up to its name – as a true revelation of modern design and excellent quality. Thanks to its numerous elements, Verity Line offers you everything you need to make your own modern bathroom design style a reality. To create your personal oasis of well-being, we have a range of different washbasins to choose from, as well as perfectly coordinated furniture and mirror cabinets.

White Wood

LESS IS MORE

Thanks to the no-handle push-to-open technology, the fronts of the Verity Line units appear as smooth, streamlined surfaces. You have the choice here of which look you prefer - including various wood colour options available in matt and high-gloss finishes. All bathroom furniture units offer generous storage space and feature sophisticated accessories. This makes it simple to create a fusion of creative living and intelligent use of space that corresponds to your personal preferences.

SLIM-LINE EFFORTLESSNESS

Verity Line showcases clean lines: the slim outer edge, just 18 mm thick, gives the washbasin its wonderfully delicate appearance. On the inside, meanwhile, the 120 mm deep, elegantly curved basin provides ample space for washing in comfort. Its elongated shape with spacious surfaces to the left and right make Verity Line ceramics the perfect combination of design and function.

**Direct
Flush**
Villeroy & Boch

THE NEW GENERATION OF WCS WITH DIRECTFLUSH

The innovative design of this WC, featuring no flushing rim, means that it is exceptionally quick to clean thoroughly and therefore ultra-hygienic. Verity Line thus unites modern design style with superb functionality - for a bathroom without compromise.

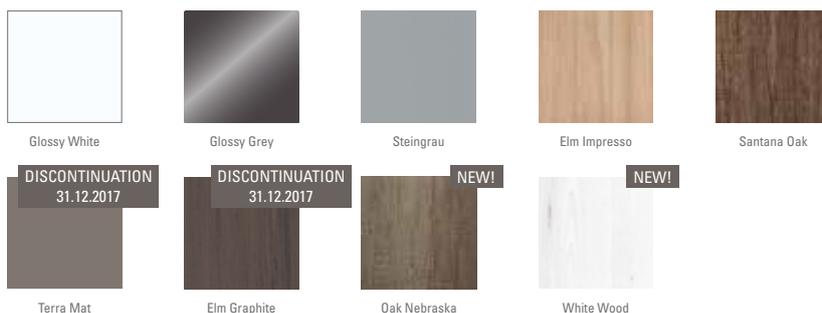

VERITY DESIGN

A RICH VARIETY OF TIMELESS DESIGNS

A bathroom that unites form and function perfectly: this is Verity Design - the modern collection made to the level of quality of Villeroy & Boch. Rectangular silhouettes define the elegant, overall design - from the washbasins right through to the furniture and mirror cabinets. The wall mounting gives the vanity units a particular air of weightlessness. The collection offers a wide range of elements and colours, resulting in an interior that fits seamlessly with your personal design preferences. This becomes your customised Verity Design bathroom - to enjoy each and every morning.

COLORS (Body and Front)

AMPLE STORAGE AND TOP-NOTCH DESIGN

The pieces of furniture in the Verity Design collection not only feature clean, modern designs, but are also available in a range of nine attractive colours: all units are available in Glossy White, Glossy Grey, Terra Mat, Stone Grey, Elm Graphite, Elm Impreso, Santana Oak, Oak Nebraska and White Wood. The vanity units' well-thought-through storage options and compartment design with cleverly placed drawers will give your bathroom a new sense of freedom and space. And, with additional tall units and side units, you can easily add in the storage space you need. Last but not least, our mirrors and mirror cabinets, which feature appealing lighting elements, will show your Verity Design bathroom in the very best light.

BEAUTIFULLY ELEGANT, BEAUTIFULLY PRACTICAL

Each Verity Design washbasin is crafted in a timeless, beautiful design that also boasts some nifty features. You will be spoilt for choice, too: with six vanity units that come with practical storage space and three washbasins, there is an ideal solution for every space - whether it's the family bathroom, a single wet room or the guest WC. They all have one thing in common: they always look great.

PERFECT HYGIENE WITH DIRECTFLUSH AND VIFRESH

The WC with no flushing rim featuring DirectFlush not only looks particularly appealing inside, but also means that it stays much cleaner and requires far less effort to clean. What's more, ViFresh, the integrated freshness solution from Villeroy & Boch, introduces a pleasant fragrance and extra care for the WCs in the Verity Design collection. An innovative compartment for WC hygiene blocks has been built into the ceramic behind the ultra-slim WC seat and is almost invisible. It diffuses a hint of wonderful freshness with every flush.
